

TATENDA MAKANDIGONA

SOFTWARE DEVELOPER

Profile

Highly focused technologist with a multidisciplinary skill set honed over 4+ years in the IT industry. I strive to build great products and can take an initial idea, tackle it from multiple angles and take it from something great to something incredible. With 4+ years of experience in various industries, I help tech startups from idea phase to high volumes. I design and build scale-able solutions, implement internal processes that fit your organization, build teams that produce results.
